NOTICE OF INDEPENDENT REVIEW DECISION

RE: MDR Tracking #: M2-03-0693-01-SS

___ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). ___ IRO Certificate Number is 5348. Texas Worker's Compensation Commission (TWCC) Rule §133.308 allows for a claimant or provider to request an independent review of a Carrier's adverse medical necessity determination. TWCC assigned the above-reference case to ___ for independent review in accordance with this Rule.

___ has performed an independent review of the proposed care to determine whether or not the adverse determination was appropriate. Relevant medical records, documentation provided by the parties referenced above and other documentation and written information submitted regarding this appeal was reviewed during the performance of this independent review.

This case was reviewed by a practicing physician on the ___ external review panel. This physician is board certified in neurosurgery. The ___ physician reviewer signed a statement certifying that no known conflicts of interest exist between this physician and any of the treating physicians or providers or any of the physicians or providers who reviewed this case for a determination prior to the referral to ___ for independent review. In addition, the ___ physician reviewer certified that the review was performed without bias for or against any party in this case.

Clinical History

This case concerns a 42 year-old male who sustained a work related injury on ___. The patient has undergone a CT. This patient is post anterior cervical partial vertebrectomy at C5-C6 with anterior interbody fusion at C5-C6 placement of anterior cervical cage and operative micro dissection done on February 11, 2002. The patient has undergone facet joint/transforaminal injections and takes oral pain medications.

Requested Services

Posterior cervical laminectomy and foraminotomy.

Decision

The Carrier's denial of authorization for the requested services is upheld.

Rationale/Basis for Decision

The ___ physician reviewer noted that the patient sustained a work related injury on ___. The ___ physician reviewer indicated that a posterior cervical laminectomy and foraminotomy has been requested. The ___ physician reviewer explained that the requested posterior cervical laminectomy and foraminotomy is not medically necessary to treat this patient's condition at this time. The ___ physician reviewer also explained that decompression laminectomy would further

destabilize the spine. (Biomechanics of Interbody Cages; Spine: 1999.) Therefore, the ____ physician consultant concluded that the posterior cervical laminectomy and foraminotomy is not medically necessary to treat this patient's condition at this time.

This decision is deemed to be a TWCC Decision and Order.

YOUR RIGHT TO REQUEST A HEARING

Either party to this medical dispute may disagree with all or part of the decision and has a right to request a hearing.
